Silica gel pack	1 piece
Warranty card	1 piece

Product overview

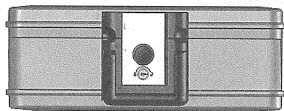

- A- Chest lid
- B- Chest body
- C- Latch push-button
- D- Latch
- E- Lock cylinder
- F- Handle

! Attention

To ensure fire & water protection, always store flat with lid up.

Right!

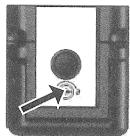

Never store in upright position with lock (and handle) facing up.

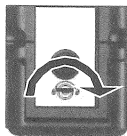

Due to airtight seal, it is recommended that you occasionally open safe and air it out at least 30 minutes to prevent any build up of moisture inside.

Unlock chest

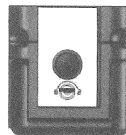

1. Insert key into lock cylinder.

2. Turn the key to the right ½ turn (180° clockwise).

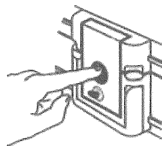

3. Chest and push-button is now unlocked.

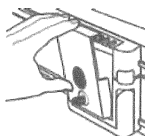

Open latches

4. Press in the black latch push-button.

5. Once latch is lifted upward, pull top of latch back.

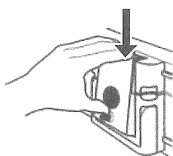

6. Chest is now unlocked and you may lift the lid.

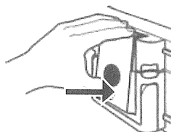

▲ Note: Do not turn key unless it is inserted all the way into the lock!

Close latches

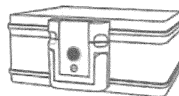

1. With chest closed, push latch downward.

2. With latch pushed down, push bottom of latch in.

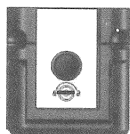

3. Latch is now locked and you may insert the key.

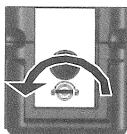

Lock chest

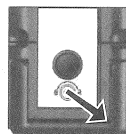

4. With latch closed, insert key into lock cylinder.

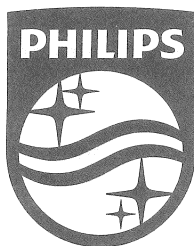

5. Turn the key to the left ½ turn (180° counterclockwise).

6. Chest is now locked and you may remove the key.
